The location is **Cicero, Wn** on this company's property. To secure right, it will be necessary

Location: **Cicero, Wn**

Title and Reason: **Prep for Bank Protection**

Under AFE 812-20 a dyke was constructed above Cicero, Darrington Branch, to turn high water of the Stillaguamish River to out a channel across a bar formed opposite our track. There has been no high water but a recent freshet has partially cut the proposed channel and in the meantime the river is continuing to wash the bank adjacent to the track and below the dyke. The situation became an extreme emergency and in order to stop the river from cutting into the dump, it was necessary to place rock as covered by the attached RFA.

The work has been completed and this RFA is submitted to cover the improvement and expense.
