- B. What does the modeling committee need to do better?
- C. What is the modeling committee not doing that we should be doing?
- D. How can the modeling committee improve communication with NP modelers?

3. Future ToDo:

- A. Release the projects we have in development.
- B. Now that we have acquired the Leach artwork, we need to develop offerings based on that asset. This was a goal last year, and we are way behind on getting this done.
- C. We continue to get requests for very important NP structures for which we can't find drawings. If we can get the drawings, we can produce the model.
