## EXPLANATION OF CHARACTERS USED.

Freight Stations are designated.....	"F"
Local Ticket Stations are designated.....	"T"
Regular Coupon Offices are designated.....	"C"
x Limited Coupon Offices are designated.....	"L"
Express Offices are designated.....	"X"
Prepaid Stations are designated.....	"P"
x Offices with less than 10 Forms of Coupon Tickets.	

These letters are combined as may be necessary; for example: "T C F X" means Local Tickets, Coupon Tickets, Freight and Express. Freight must not be way-billed to stations designated herein as "\*" (prepaid stations), unless the charges are fully prepaid.

In connection with each station is shown the station number, telegraph call, whether day and night telegraph office, or day only, "D. N." denoting day and night office, and "D" day only. Stations, at which telephones are located for use of trainmen are indicated by letter "P."

The distances given in the list of stations are the time card mileage and are measured to and from depots and not from initial or junction point of track.

## CONNECTIONS WITH OTHER ROADS.

Opposite junction stations numerals are given, which, by reference to the following table will designate the names of the lines radiating from such stations. The sign (†) shown after the numeral which is used to designate the name of a road indicates that, with the line so designated, connection is made over the track of another company. The sign (‡) indicates that the line has no track connection, direct or indirect, with this company's line at that point.
