REQUISITION FOR AUTHORITY FOR EXPENDITURE.

Form 100 (Revised 1906)

St. Paul, Minn., January 5, 1907

Comptroller's No.

Division. Telegraph Department. Applicant's No. 15

Authority is requested for an expenditure as per detailed estimate attached of \$ 3200.00

For { new work additions maintenance } at Between Billings and Livingston - 116.4 miles consisting of An additional No. 8 iron railway message wire.

The location is shown by plan attached, sketch on back, and is on this company's property. To secure required rights, it will be necessary

Charges are to be made against

for

as per

The expenditure is recommended for the following reasons:

Owing to the increased business on the Montana Division it has become necessary to divide the railway message wire Billings to Helena at Livingston, the simplex being divided there. It is extremely desirable to give Billings, Laurel and other stations east of Livingston a direct connection with points west of there, particularly Helena. The proposed new wire will affect this by connecting it with the single message wire west at Livingston. Supt. Finch requested that a wire the entire distance to Helena be put up but I think this portion of it will greatly relieve the situation.

ESTIMATED COST:

Table with 2 columns: Item, Amount. Material \$2515.00, Labor 685.00, Total \$3200.00

\$3200.00 will be required for construction, which should be commenced April 10-07 in order to complete by April 30, 1907.

and be done by Telegraph Dept. force under charge of Supt. Telegraph.
