new work or ~~XXXXXXXXXX~~ at WEST SEATTLE ~~XXXXXXXXXX~~ Not in Budget ~~XXXXXXXXXX~~

Consisting of Extension of water pipe to serve ships with fresh water from City supply

The location is on this company's property and is not in joint territory. To secure required rights it will be necessary

If required by Accounting Department, a detailed estimate will be furnished promptly after approval. The expenditure is recommended for the following reasons: (if space is not sufficient continue on back.)

It is necessary to furnish ships fresh water while berthed at West Seattle Elevator or Coal bunkers, and in order to do so, we wish to extend present pipe line 140 feet along face of Wharf.

It has been customary to use hose for this purpose and present hose is badly worn and have found cases where our fire hose has been used by the Houser Grain Company, contrary to instructions.

To prevent further misuse of fire hose, and avoid expense of purchasing special hose for the purpose, we recommend placing the pipe line.

This recommendation has been inspected by Superintendent, Supervisor, and Engineering Department and all agree upon the recommendation.
