REGISTERING STATIONS—Iron River and Washburn.
 BULLETIN STATION—Iron River.
 Washburn branch trains will wait at Iron River for connections.

REGISTERING AND BULLETIN STATIONS—Ashland and Central Ave.
 First District Trains will register and receive orders at Central Ave.
 STANDARD CLOCK—Duluth.

All trains and light engines must come to a FULL STOP before crossing C. St. P. M. & O. track at C. St. P. M. & O. Junction, and will be governed by interlocking signals at Northwestern Coal Ry. Crossing just east of Allouez.

All engines with or without trains must come to a FULL STOP two hundred (200) feet from Draw Bridge at East End, and will not proceed until it is known that the bridge is properly closed and secured.

No freight trains on First District are permitted to carry passengers.
 No. 4 will take siding for No. 1.
 Passenger trains will wait at Iron River for Washburn branch connections.
 The speed of engines and trains must not exceed four (4) miles per hour between East End passenger station and roundhouse.
 Between East End and Duluth, trains will be governed by Duluth and Superior Terminals Time Table.

REGISTERING STATIONS—Central Ave., Carlton, Brainerd and Staples.
STANDARD CLOCKS—Duluth, Carlton and at Staples Passenger Depot.
All trains and light engines will be governed by interlocking signals at Third District crossing at Carlton and Great Northern crossings at State Line and Central Ave.

BULLETIN STATIONS—Central Ave., Carlton, Brainerd and Staples Passenger Depot.
Brainerd Yard extends to Gravel Pit, two (2) miles east of Brainerd.
Junction switch at Central Ave. must be left set and locked for the second district.
No. 14 will wait at Staples for St. Paul and Minnesota Division trains Nos. 3, 4, 15 and 16.
Nos. 57 and 58 are permitted to carry adult male passengers, between Carlton and Brainerd, when provided with proper transportation.

No. 12 will wait at Staples for Nos. 7 and 8.
Double track extends from State Line to Walbridge.
All trains will keep to right. Trains meeting on double track must be positively identified. Switch at Walbridge will be kept set and locked for west bound track. Switch at State Line is handled from tower.
No. 103 and 104 will register at Central Ave. by ticket.

All trains between Duluth and West Duluth Jet. will be governed by Duluth and Superior Terminals Time Table.

Nos. 175 and 176 between Carlton and Hinckley and Nos. 173 and 174 between Hinckley and Rush City are Permitted to Carry adult male Passengers, when provided with proper transportation.

All trains between White Bear and St. Paul will be governed by St. Paul Division time table and between St. Paul and Minneapolis by Great Northern Railway time table regulations.

Passenger trains will wait 20 minutes at White Bear for connections.

Interlocking switches and signals are located at Bald Eagle, Hinckley and Carlton.

Double track switch at West Duluth Junction will be kept set for east bound track.

All east bound trains will come to a full stop at double track switch at West Duluth Junction and will know that track is not obstructed by trains crossing over to Grassy Point Line or to Fond du Lac branch.

Third District main line trains will register and receive clearance and orders at West Duluth.

On Sundays, Nos. 103 and 104 will stop on flag at Harris, Willow River and Barnum.

No. 101 will wait at Carlton for Second District No. 11.

No. 116 will take siding for No. 101.

Nos. 147 and 148 lose rights and class when 30 minutes or more late.

No. 148 is a "BACK UP" train and will not carry passengers.

Nos. 103 and 104 will register at Wyoming by ticket.

SPECIAL RULES

No. 1. West-bound freight trains meeting passenger trains at Smithville or Short Line Park will not let off their brakes or start their train until train met has cleared east switch.

No. 2. Rule 288, Book of Rules, is modified to the extent that extra trains may run ahead of third class trains and their sections without orders.

No. 3. Engineers will not be required to consult registers except at initial or starting point. See rule 308, Book of Rules.

No. 4. Retainers must be used on grades between Pine Grove and Central Avenue, Carlton and West Duluth Junction, and other grades where in the judgment of the

engineer they are necessary. Conductors are responsible for application of retaining valves on commencement of descent, and for their release at the foot of grade. Such full use of retainers is required as will prevent placing an undue amount of braking on any particular car or cars, and as will afford full opportunity for engineer to recharge and retain maximum air pressure at all points.

No. 5. Engines backing will not exceed Fifteen (15) miles per hour unless equipped with pilot on rear of tender.

No. 6. To insure personal safety, operators having train orders or messages to deliver to passing trains should stand to the right hand side of train, and avoid standing between tracks, when possible to do so.

NOTES.

SURGEONS will attend, when called upon officially, to all cases of accident occurring to employes or passengers. In cases of sickness it is the intention to limit medical service to the locality or town where a surgeon resides, unless some urgent necessity exists, for which distinct official authority must be had in accordance with established regulations.

RAILWAY OFFICIALS are required to call on the nearest authorized surgeons whenever practicable, when surgical or medical services are needed. When such are accessible, the Association will not be responsible for bills for medical services rendered by any other physician. In the event of a sudden emergency, arising from accident, if necessary proper surgical aid

should be procured until the arrival of a regularly appointed surgeon, when the case should be placed in his charge, and in no case should the service of any but an authorized company surgeon be continued at the expense of the Railway Company or the Association after such surgeon is able to assume charge of the case.

BOARDING AND NURSING are furnished only at our own hospital. We are not responsible for bills incurred elsewhere unless specially authorized or approved by the Chief Surgeon, and then only in critical cases of injury or illness occurring in the discharge of duty.

C. E. McMULLIN,
Assistant Superintendent.

K. M. NICOLES,
Train Master.

L. F. NEWTON,
Assistant Train Master.

F. E. POTTER,
Chief Dispatcher.

Above rating is based on trains consisting of loads only and rating is calculated for an average speed of ten miles per hour.

For each car added to number specified above, deduct ten tons from rating of engine; for each car less than number specified above, add ten tons to rating of engine.

West bound trains with two engines will not handle more tonnage than the combined rating of both engines.

In figuring tonnage of the car, less than 1,000 pounds will not be counted; one thousand pounds or more will be counted one ton.

To secure full tonnage rating a fraction of weight of car more than rating must be counted rather than a fraction less.

Train dispatcher will determine rate to be handled when reduction is necessary account of weather condition, except that for temperature alone the following rule will be applied by all concerned:

Reduce rating:—10% between 30 above and 10 above zero; 15% between 10 above and 10 below zero; 25% when temperature is below 10 below zero.

When engines are unable to haul the rating, engineers will designate to conductors the number of tons to be reduced and will wire the Superintendent why the reduction is necessary. It must be distinctly understood that the responsibility for reducing train below rating of engine must be assumed by the engineer and not by the conductor.

This rating is made to govern ruling grades only, and will in no manner interfere with the handling of additional tonnage where the grades will permit.

The above rating includes helper from Carlton to Howell and from Carlton to three miles west of Carlton on 3rd District.

In making up or filling out trains the following rules will be followed as far as practicable:

Solid trains of loads or solid trains of empties.
 Where trains consist of both loads and empties, loads in the middle with empties divided between the head and rear end of trains.

Maximum tonnage per local freight trains will be 200 tons less than tonnage for through freights. Tonnage for fast freights will be regulated by bulletin.
