

North Dakota's Own Story

Wanted—281,250 Homeseekers!

THE people who know the most about North Dakota are her own people—men and women who can tell just what their state has done for them and what she promises for the future. Satisfied North Dakota farmers ask the rest of the country to consider these facts:

North Dakota leads all states in the production of No. 1 hard wheat, produces more than half of the flax crop of the country, raised 34,720,000 bushels of corn this year, and is rapidly gaining in production of live stock, poultry, dairy products, honey, potatoes, sweet clover, alfalfa, hogs, sheep, etc.

Thousands of North Dakota farmers mine their own coal from vast and convenient deposits of lignite, easily mined and excellent in quality.

North Dakota, according to federal statistics, leads all other states in the percentage of her people who own their own homes, her educational system ranks high, her cities are progressive and her markets easily reached.

Good land enough to make a 160-acre farm for 281,250 homeseekers is available at low prices in North Dakota. The Greater North Dakota Association invites new settlers to share the good fortune and the opportunities of the state.

Mrs. Ervin Michel, 3½ miles south of Jamestown, N. D., started her flock of poultry 3 years ago by buying eggs and hatching 50 birds. Now she has 200 hens and raises about 500 chickens a year. Last year after paying for feed, she had a net profit of \$471.

"I pay the store bill and keep a balance on hand in store credit just from my chickens alone," she says.

If you are interested in North Dakota's farming opportunities, write the Immigration Department of the Northern Pacific Railway which will send you literature containing letters from actual farmers, and give you information about any particular region in which you may be interested. Write today.

Oregon Beaches Call!

WARM sunshine, cool breezes from the Pacific Ocean, pine woods rising from the wide sand beaches! Oregon offers glorious ocean resorts. There are miles of solid sand floor.

CHILDREN have a wonderful time on the Oregon beaches! Riding the ponies, digging in the sand, wading in the surf, hunting for shells!

There is something for everyone to do all the time. It is a gay playground for vacation fun.

Good hotels and cozy cottages along the beach promenades, fascinating curio shops, sightseeing cars and tempting restaurants.

Wonderful sea food for wonderful sea appetites! Bathing, riding, dancing, resting.

If You're going to California this Fall or Winter Visit Oregon

At Seaside ("The Atlantic City of the Pacific"), Gearhart, Cannon Beach and other Oregon resorts you find every kind of summer pleasure. And summer lasts a long time there. When it's wintry "back east" one finds warm days in Oregon.

Nowhere is the surf more splendid than on these long Oregon sand floors. The Pacific Ocean pounds in, and the green mountains rise to make a perfect background for the picture.

Spend a happy, lazy vacation at the Oregon beaches this year!

North Dakota Farmers Are Diversifying

NORTH DAKOTA HAS:

70,000 square miles of land, 44,736,477 acres.

77,690 farms which contain 36,214,000 acres—18,000,000 acres under cultivation.

The largest production of hard spring wheat.

More than half the flax crop of the United States.

One million acres of corn in 1924; as compared with 432,000 acres in 1920; in 1923, 29,000,000 bushels grown.

1923 dairy production of \$33,000,000 compared with \$17,000,000 in 1919.

The acreage devoted to corn and potatoes has been increased 100% in the past five years and for several years passed the acreage in sweet clover and alfalfa has increased at the rate of about 25% yearly, increasing from 21,500 acres in 1919 to 230,000 in 1923.

At present the average size of farms in the entire state is 466 acres. These large farms must be subdivided into 160 and 320 acre tracts in order that the farmer with his family may properly cultivate the land and follow a permanent system of agriculture, which embraces growing a variety of grain and cultivated crops and keeping live stock.

Corn, clover and alfalfa are successfully grown in every county in North Dakota. To the farmer of moderate means of the overcrowded central and eastern states, North Dakota has to offer for diversified farming millions of acres of lands that are lower in price than the land of those states and which will yield crops that are larger.

The Greater North Dakota Association invites new settlers to share the good fortune and the opportunities of the state.

For information on any particular section of the state, write
H. W. Byerly, General Immigration Agent, St. Paul, Minn.
