</tr>
<tr>
<td>Total Operating Expenses</td>
<td>850</td>
</tr>
</tbody>
</table>

Net charge to investment account: $804.

This project is on this company's property. To control rights, it will be necessary.

Cabinet to Granite, Idaho.

Estimated cost of tie plates placed in connection with Form A1 curve relays:

AGS 144-84 provided for tie plates to be used in connection with the curve relays. This improvement was closed out at the end of the year in accordance with the instructions that the tie plate AGS should not be carried over into another fiscal year. The curve relays however had not been completed and when completed in 1926, tie plates were used and released as shown below. A new AGS will therefore be needed in order that the accounting may be properly handled.

Completed:

Superintendent.

Division Accountant

Check and Collected:
