Title: Crossover to accommodate the Great Northern Railway.

and

in 1924, when preparing for the northeast Minneapolis grade separation work, the Great Northern requested a crossover be installed between the Eastward main track and the Great Northern main track just north of 33rd Ave. N.E. to facilitate the handling of trains during the grade separation work.

The entire expense of installing the crossover was borne by the Great Northern and they are to bear the expense of removing the crossover when it has served its purpose at the completion of the grade separation work in 1927.

This AFE is submitted to cover the work of installing the crossover which was completed in August, 1924.
