Location:

Granite, Idaho.

Title:

Track increase 1265.5 feet.
Extending siding 1269.5 feet.

and

Reason:

The extension of siding is to accommodate longer trains with heavier power to facilitate the through operation of freight trains between Spokane and Missoula. The extension above proposed will provide a siding of one mile instead of a siding of 5000 feet, recommended in RPA #104 of November 10th, 1925.

With the lengthened sidings at various points between Spokane and Paradise our eastbound tonnage will be between 80 and 90 car trains.
