Budget reference: Item 1929 Budget JUN 1933 Class of Works No. 21

Joint facility contract reference: O.W.R. & N. and C.N.Ry. Contract July 1, 1909.

The location is on this company's property. To secure rights, it will be necessary to do nothing

Location: Centralia, Washington

Title: Repair Turntable

and

Reason: The present turntable at Centralia is 85 feet long and was placed in 1912. The main girders are not overloaded but the movable parts are not sufficient for the W3 and W5 power now operated. The end wheels, end floor beams and center loading girder are overloaded and replacements have been necessary to take care of broken beams. The end wheels require frequent renewal. It is proposed to change the design of the beams, wheels and loading girder, providing a stronger construction to reduce maintenance cost.

Work to be done by company force under charge of Division Superintendent

Accounting to concentrate in the office of Division Superintendent
