Joint facility contract reference: Non Joint.

The location is White on this company's property. To secure rights, it will be necessary to acquire additional right of way.

Title: Filling portion of Bridge 5 and rebuilding remainder of bridge

Reason: Bridge 5 at White is in such shape that it will have to be renewed - the bents being last renewed in 1919 and deck in 1924. Piling is in bad shape. Consideration has been given towards filling this bridge, as 11 spans at the east end and 4 spans at the west end can be filled to advantage. The remaining part of the bridge has been included in the program for rebuilding as a creosoted ballast deck.

Would therefore recommend that the work be done in accordance with the estimate and blue print furnished by Engineering.

Work to be done by ~~company force~~ under charge of Superintendent

Accounting to concentrate in the office of Division Accountant
