Joint facility contract reference:

SP&S 12-109

The location is  
Location:

AT WILLBRIDGE, OREGON

Title  
and

INSTALL TEST PANEL SWITCHBOARD

Reason: The Northern Pacific Railway maintains two telephone circuits (4 wires) and two telegraph wires between Tacoma and Portland via Vancouver and Willbridge.

One of these is the Tacoma Division telephone train dispatching circuit which was recently extended between Vancouver and Portland. This circuit is now being cut in at the Guilds Lake Yard and the Union Depot at Portland. In addition to the above there has been recently installed a phantom telephone circuit connecting Tacoma and Portland which was derived from the use of the two telephone circuits hereinbefore mentioned.
