Title: Electric Lights at Coal Dock -

and

Reason:

This dock is a very dark place. It is necessary for Dockman to move about the dock at night with the aid of a lantern or torch, a hazardous proceeding. This hazard is enhanced because pump engine and coal hoisting apparatus are operated by gasoline. It is proposed to install eight lights as per estimate and sketch attached. These will not only reduce the personal injury hazard but also the fire hazard.

Work to be done by company force under charge of Superintendent.

Accounting to concentrate in the office of Division Accountant.
