Budget reference: In Budget. Item. No. 323.

Class of Work: No. 13.

Joint facility contract reference: Not Joint.

The location is --- on this company's property. To secure rights if null or necessary //

Location: Between Missoula and Paradise, via both routes, and between Dixon and Polson, Montana.

Title

and Replace Sandwich Selectors with Western Electric 160-AR Selectors.

Reason: The selectors on the dispatching and message telephone circuits between Missoula and Paradise via both routes are the Sandwich Electric Company type. They have been in service since March 1911 and are practically worn out. The Manufacturing Company is out of business. The dispatching circuit on the Dixon-Polson Line is also equipped with this type of selector and as this circuit is connected to the Fourth Sub-Division dispatching circuit, it is necessary to change selectors on the branch line also.

Proposed

It is proposed to make this replacement with Western Electric Company type 160-AR selectors which will improve the service.

A detailed statement showing the estimated cost, is attached, and forms part of this AFE.

Work to be done by company force under charge of Superintendent of Telegraph.

~~XXXXXX~~

Accounting to concentrate in the office of Superintendent of Telegraph.

Checked and Entered
President's Office
