Title: Fairmont gasoline operated weed destroyer

Reason: In order to provide equipment for the economical destruction of weeds on the Yellowstone Division it is proposed to purchase one Fairmont 6 burner type, gasoline driven, weed burner. This weed burner will take care of main and branch line burning on this Division, eliminating the necessity of transferring burner from adjacent Divisions and will permit the burning of weeds at an opportune time, reducing labor expense, and also minimizing the expense of operating the weed burners due to delays and expense in transferring.

With the purchase of a burner for the Yellowstone Division there will be a complete assignment of one weed burner to each Division. Last year we were not able to keep down the weed growth with the two weed destroyers assigned to the Central District. It requires at least one weed burner to each Division.

Work to be done by purchase req. Engineering Department

Accounting to concentrate in the office of Division Accountant
