The location is _____ on this company's property. To secure rights, it will be necessary

Location: Steele -

Title: Abandon Freight House and Remodel Passenger Depot.
and

Reason: At this station there are separate passenger and freight depots 300' apart. Freight House is in very poor repair requiring new underpinning, reshingling and floor repairs. It is too large for the business handled and too remote from the office for convenience. The living rooms in the depot are not occupied. There are two waiting rooms, but the traffic does not warrant the use of both. Instead of making heavy expenditures for repairs of the freight house it is proposed to remodel the passenger depot so that the ladies waiting room and the living rooms may be used for freight room as per estimate and sketch attached.

Work to be done by company force under charge of Superintendent.

Accounting to concentrate in the office of Division Accountant.

Checked and Entered
President's Office
