and

Reason: Engine lathe MT-2645 was released at Paradise under A.P.E. 652-28.

In order to economically handle the turning up of piston and piston rods of the extended type, it is recommended that this lathe which has a 16' bed be installed in the Machine Shop at Parkwater, replacing lathe WN-2760 which has only a 12' bed. This will eliminate the removing of piston head from the piston rod and will result in an estimated annual saving of \$200.00.
