The location is — — — on this company's property. To secure rights, it will be necessary

Location: Duluth, Minnesota.

Title Replace 6" x 12" curbs on West approach with 9x18" curbs, etc.

and It is proposed to replace the present 6x12 inch curbs on west approach to the 6th Ave. O. H. Viaduct, with 9x18 inch curbs, filling in timber cribs in front of bulk head on west approach.

Reason: In 1927 the city of Duluth requested replacement of 6x12" curbs on the east approach to the viaduct with a 9x18" curb, which work was taken care of under A.F.E. 5-27. It was the understanding at that time that when the approach to the west side of the viaduct had to be renewed, that the curb would also be increased to the same size as that on the east approach. Therefore, this improvement is to take care of the situation in accordance with the understanding with Police Department of the City of Duluth, and is also in line with the best thought of the Engineering Department who looked into the situation on Bridge Inspection last fall. This work is covered by N. P. Ry., Co's. form 134 for 1930, under Class #7 - Overgrade Crossings.

N.P. paper covered by A.F.E. 650-1930.

Work to be done by company force under charge of Superintendent, N. P. Ry.

Accounting to concentrate in the office of Superintendent - D. U. D. & T. Co.
