Title: Proposed removal of turntable.

and

Reason:

The present sixty-four foot turntable has been used very little the past few years and the prospects for the future of any great use being made of it are poor; therefore it is proposed to abandon the table and track serving it, salvage the material, and save future maintenance expense.

The Great Northern has an eighty foot table served by a track leading off their "K" Line which we can make use of if it is necessary to turn our engines for any reason and, therefore, it is felt we are no longer justified in maintaining our present table.

Work to be done by company force under charge of Superintendent
