Location: Thrall, Washington

Title: Provide Loading Platform and Extend Track.
and: Track increase 307 feet.

Reason:

A recent survey by the Traffic Department throughout the Kittitas Valley indicates a heavy tonnage in hay and potatoes from that territory, which is highly competitive with the CNST&P. A careful investigation indicates that our competitor is very active in providing modern facilities for handling this tonnage, and in order to secure a reasonable proportion for movement via the Northern Pacific, it is necessary that additional facilities be provided. It is, therefore, recommended that a potato loading platform be constructed and the loading track extended in accordance with the attached sketch and estimate.
