Budget reference: Blanket Item #277 264-1930.

Class of Work: No. 10

Joint facility contract reference: Non Joint

The location is on this company's property. To secure rights, it will be necessary to obtain permit from the County, to cross County Road.

Location: Bayne

Title: Connection with CMST&P Railway
Track increase 1218 feet.

Reason:

Morris Brothers are operating the old Occidental Mine at Bayne, the mine being served at present by the CMST&P Ry, only. Morris Brothers estimate that the output of mine will be about 5,000 tons of coal per month, and they have applied to the Northern Pacific for track connection. The CMST&P has agreed to permit the N. P. Railway to connect with their tracks instead of making a crossing of CMST&P line and connecting with the mine spur direct; the connection to be a short distance west of the mine turnout, the N. P. to use a short portion of the CMST&P main line, which will result in shortening the amount of track the N.P. Ry would have to build. It is therefore proposed to construct the connection on basis of Morris Brothers furnishing the ties beyond the clearance point, taking care of changes necessary in telephone and power lines; all other costs to be borne by N. P. Ry. Engineer's estimate and blue print attached. The work has been informally authorized under date of Dec 13th, material has been ordered, and work will be hurried to completion upon receipt of the material.

Work to be done by company force under charge of Superintendent

Accounting to concentrate in the office of

Division Accountant
