Explanation of Reference Marks

1. Aberdeen, Hoquiam, Cosmopolis, Washington; most of the tracks are owned by the N.P. While all switching is performed by the NP under a joint agreement and for account of all lines where they have access, there are a few exclusively served by the NP as indicated. There is an established interchange at Aberdeen and Hoquiam.
2. No established interchange.
3. Reciprocal switching except as noted.
4. Kovar Mfg. Company located on Hospital Spur to which GN cars are not to be switched.
5. Reciprocal switching except to Alcona Chemical Corp.
6. Auburn, Kent, Puyallup, Washington, NP tracks (GN has access to some as indicated) on one side of town. Milw. and UP tracks are on the other side. There is no interchange.
7. Reciprocal switching to all industries except City of Bemidji account deliveries accomplished on GN track. Goodman Cement Co. located on private spur served by GN. Ludvigsen and Carlson on Soo 4 miles outside switching district.
8. Account joint agreement between the NP, GN and CB&Q, no-switching charges are assessed on carload business into Billings via the various lines. Each line has free access to every industry. All switching performed by the NP.
9. Bremerton served by NP who have the only auto unloading platform. The Puget Sound Navy Yard switch their own yard and spot cars arriving via car barge for private industries on team located just outside Navy Yard.
10. Esko, Minn. is located 6 miles from Carlton, but these industries take delivery on Carlton team track.
11. Interchange between NP and GN only.
12. Not subject to reciprocal switching.
13. Interchange with UP.
14. Lakeview, McChord Field, Mobase, Metreco, Washington, GN have access to these stations. All service on the Prairie Line Tenino to Tacoma is performed by NP under agreement.
15. LFN switching line owned jointly and equally by NP, GN, UP, Milw.
16. Via Camas Prairie RR. Craigmont, Idaho, Nezperce Ry.

17. Portland, Ore. NPT SPS United Rys. OE are subsidiary lines doing all switching on NP on competitive traffic. The NP SPS absorb switching charges to all industries on UP and SP. Note - P.T. (Portland Traction Co.) owned jointly by Union Pacific and Southern Pacific.
18. All tracks in Richland owned by U. S. Atomic Energy Commission within Government barricades, the following carriers have rates - NP UP MILW and all tonnage handled from interchange points, Beverly on Milwaukee; Richland for NP UP by Government power; Richland proper only NP and UP have operating rights over the Government-owned tracks.
19. Joint track switched by NP.
20. Seattle, Wash. While there is an interchange with all lines, our more extensive trackage and greater switching facilities give the NP an overall advantage. The West Seattle, Fremont, University and Ravenna or Wood Spur districts are exclusively served by the NP. The Terry Ave. district is served only by the NP and GN, but all switching is performed by the NP under agreement. The Ballard District is served only by the NP and GN. The terms "NP Team" and "NP Team only" are indicative of the industries' preference for delivery, to avoid heavy drayage costs from downtown team tracks of the other lines.
21. Tacoma, Wash. While there is an interchange with all lines, our more extensive trackage and greater switching facilities give the NP an overall advantage. The Center St. and South Tacoma switching districts are served only by the NP and our exclusive team tracks in these districts are heavily used to avoid the excessive drayage costs from the downtown team tracks of the other lines. The terms "NP Team" and "NP Team only" are indicative of the industries' preference for delivery. The Municipal Ry. Line (Muni.) and the Port of Tacoma tracks (P of T) are accessible to all lines on equal basis through interchange.
22. Joint Agency SPS operating line.
23. On Craig Mountain Railway.
26. Railway Transfer Ry. and Minneapolis Eastern Ry. are switching lines located entirely within the City of Minneapolis. Industries located on the tracks of either company at Minneapolis are accessible to all other lines serving the city.
27. British Columbia stations. All industries shown can be reached by the NP through its connection with the BCE or the CPR at Sumas, Washington, access being on equal basis.
28. Outside switching limits.
29. Not subject to reciprocal switching, except on transit grain.
30. Located outside Portland reciprocal switching limits.
