V. JOINT FACILITIES

Between Willbridge, Oregon, and Vancouver, Washington, the carrier owns jointly with the Spokane, Portland and Seattle Railway some 8.705 miles of trackage and several bridges across the Columbia and Willamette Rivers. The bridge across the Columbia is a double track structure 6468 feet long.

At Seattle the carrier owns jointly with the Great Northern Railway a double track main line and yard tracks aggregating 14.295 miles. On this double track is a concrete lined tunnel 5141 feet long. The carrier also owns jointly with the Great Northern the extensive passenger terminals and several large overgrade crossings at this point.

Joint property of sufficient significance to require special treatment is shown separately in this report.

In addition to the separately reported joint property there are in this report instances where the proportionate interest of this carrier in joint property is carried into the totals as though <sup>entirely</sup> owned by the carrier. There are in the summaries attached to this report sixty-two instances of this character as listed below:
